January 1, 2007

Founded in 1983, the NNRC was created as a venue for independently owned and operated, technologically advanced, quality-minded agency owners. We meet to discuss, in a noncompetitive environment, issues that impact our livelihood and profession in an effort to maintain our competitive edge. We have truly become a “family” of friends who meet every nine months for information sharing and fun. You also have the luxury of advertising to your clients the added service of national coverage for all of their reporting needs.

What sets us apart from other networks and referral services are our three levels of membership. The ultimate goal is to give you the opportunity to be part of a network that answers to and pays corporate profits to no one but its membership. Production and billing from member referrals are handled on a case-by-case basis.

If you join at the **SILVER** or **BRONZE** level to give us a try, we understand. But, please keep in mind that your exclusive territory as outlined in our Policies & Procedures will be available to your competitors if they want to take advantage of the **GOLD** level membership.

When compared to the cost, risk and commitment of both new and old networks around the country, we feel the NNRC is a win-win situation for its membership and their clients.

*Join us. You will agree.*
